

-17-
CLAIMS

What is claimed is:

- 5 1. A confectionery comprising:
- a container having an open upper end portion;
- a handle portion matingly releasably engaging said upper end portion; and
- a hard, edible body carried by said handle and disposed within said container.
- 10 2. The confectionery of claim 1 wherein said container further comprises a flowable
confectionery disposed therein.
3. The confectionery of claim 1 wherein said handle portion comprises a head portion.
- 15 4. The confectionery of claim 3 wherein said head portion comprises a humanoid head.
5. The confectionery of claim 4 wherein said humanoid head comprises an alien head.
6. The confectionery of claim 3 wherein said body portion comprises at least one body part
- 20 selected from the group consisting of a torso, a leg and an arm.
7. The confectionery of claim 1 where said handle portion comprises a collar.
8. The confectionery of claim 7 wherein said collar engages with said container for
- 25 attachment of said handle portion to said container.

9. The confectionery of claim 8 wherein said collar attaches to said container by twisting.

10. The confectionery of claim 9 wherein at least one of said collar and said container comprise a correlating set of tab and slot.

5

11. The confectionery of claim 10 further comprising a ridge that engages with said tap upon twisting.

12. The confectionery of claim 2 wherein said body portion is coatable by said flowable
10 confectionery and extractable by said coatable body portion.

13. The confectionery of claim 2 wherein said flowable confectionery comprises at least one member selected from the group consisting of sugar-based and artificial sweetener-based confectionery.

14. The confectionery of claim 13 wherein said flowable confectionery comprises at least one
15 member selected from the group consisting of sugar, organic acid, flavor agent, color agent, and flow agent.

15. The confectionery of claim 14 wherein said flow agent comprises at least one member
20 selected from the group consisting of powdered cellulose, magnesium stearate, stearic acid, paraffin and microcrystalline waxes, polyethylene waxes, mineral and other lubricating oils, talc, silicone dioxide, lactose, and calcium citrate.

16. The confectionery of claim 15 wherein said flowable confectionery comprises a
25 luminiferous confectionery.

17. The confectionery of claim 2 wherein said flowable confectionery comprises at least one member selected from the group consisting of gas-generating and gas-releasing confectionery.

18. The confectionery of claim 2 wherein said flowable confectionery comprises a fluid.

19. The confectionery of claim 18 where said fluid comprises viscoelastic rheological properties.

20. The confectionery of claim 1 wherein said handle portion further comprises an opening and a flowable confectionery disposed therein.

21. The confectionery of claim 20 further comprising a removable cap for said opening.

22. The confectionery of claim 1 wherein said handle comprises a non-edible material.

23. The confectionery of claim 1 wherein said handle comprises a rigid or semi-rigid material.

24. The confectionery of claim 1 wherein said handle portion comprises at least one material selected from the group consisting of plastic, wood, rubber and metal.

25. The confectionery of claim 1 wherein said edible body portion comprises at least one member selected from the group consisting of sugar, corn syrup, water, flavor agent and color agent.

26. The confectionery of claim 1 further comprising an intermediate holder for attachment of said handle portion to said body portion.

27. The confectionery of claim 1 wherein said container comprises a cylindrical shape.

28. A humanoid-shaped confectionery comprising:

a container having an open end, said container for receiving a flowable

5 confectionery;

a humanoid head including a collar, said head releasably attachable to said
container open end through a collar; and

an edible humanoid body attached to said head and disposed within said
container.

10

29. The confectionery of claim 28 further comprising a flowable confectionery disposed within
said container.

30. The confectionery of claim 28 further comprising a flowable confectionery disposed within
15 said head portion.

31. The confectionery of claim 28 wherein said collar and said container twist relative to each
other for twist attachment.

20 32. The confectionery of claim 31 wherein at least one of said collar and said container
comprise a set of tab and slot for twist attachment.

33. A confectionery in part shaped with human-like features comprising:

a container including a reservoir open at one end;

a plastic human-like head including a collar, said head attachable to said
container reservoir open end through said collar;

5 an edible human-like body attached to said head and within said container
reservoir when said head is attached to said container; and

a flowable confectionery disposed within said container reservoir;

whereby said body may be wetted and dipped into said flowable confectionery so
as to extract flowable confectionery.

10

34. The confectionery of claim 33 wherein said body portion is non-edible.

35. The confectionery of claim 33 wherein said collar and said container twist relative to each
other for twist attachment.

15

36. The confectionery of claim 35 wherein at least one of said collar and said container
comprise a set of tab and slot for twist attachment.

37. The confectionery of claim 33 further comprising a flowable confectionery disposed within
20 said head portion.

38. A confectionery set comprising:

a container;

a handle portion disposed directly above said container; and

25 an edible body portion attached to said handle portion and disposed directly
below said handle portion and within said container.

39. The confectionery set of claim 38 wherein said handle portion comprises a head portion.

40. The confectionery set of claim 39 wherein said head portion comprises a humanoid
5 head.

41. The confectionery set of claim 40 wherein said humanoid head comprises an alien head.

42. The confectionery set of claim 39 wherein said body portion comprises at least one body
10 part selected from the group consisting of a torso, a leg and an arm.

43. The confectionery set of claim 38 where said handle portion comprises a collar.

44. The confectionery set of claim 43 wherein said collar engages with said container for
15 attachment of said handle portion to said container.

45. The confectionery set of claim 44 wherein said collar attaches to said container by
twisting.

46. The confectionery set of claim 45 wherein at least one of said collar and said container
20 comprise a correlating set of tab and slot.

47. The confectionery set of claim 46 further comprising a ridge that engages with said tab
upon twisting.

48. The confectionery set of claim 38 wherein said container further comprises a flowable
25 confectionery disposed therein.

49. The confectionery set of claim 48 wherein said body portion is coatable by said flowable confectionery and extractable by said coatable body portion.

5 50. The confectionery set of claim 48 wherein said flowable confectionery comprises at least one member selected from the group consisting of sugar-based and artificial sweetener-based confectionery.

10 51. The confectionery set of claim 50 wherein said flowable confectionery comprises at least one member selected from the group consisting of sugar, organic acid, flavor agent, color agent, and flow agent.

15 52. The confectionery set of claim 51 wherein said flow agent comprises at least one member selected from the group consisting of powdered cellulose, magnesium stearate, stearic acid, paraffin and microcrystalline waxes, polyethylene waxes, mineral and other lubricating oils, talc, silicone dioxide, lactose, and calcium citrate.

53. The confectionery set of claim 48 wherein said flowable confectionery comprises a luminiferous confectionery.

20 54. The confectionery set of claim 48 wherein said flowable confectionery comprises at least one member selected from the group consisting of gas-generating and gas-releasing confectionery.

55. The confectionery set of claim 48 wherein said flowable confectionery comprises a fluid.

56. The confectionery set of claim 55 where said fluid comprises viscoelastic rheological properties.

57. The confectionery set of claim 38 wherein said handle portion further comprises an opening and a flowable confectionery disposed therein.

58. The confectionery set of claim 57 further comprising a removable cap for said opening.

59. The confectionery set of claim 38 wherein said handle comprises a non-edible material.

60. The confectionery set of claim 38 wherein said handle comprises a rigid or semi-rigid material.

61. The confectionery set of claim 38 wherein said handle portion comprises at least one material selected from the group consisting of plastic, wood, rubber and metal.

62. The confectionery set of claim 38 wherein said edible body portion comprises at least one member selected from the group consisting of sugar, corn syrup, water, flavor agent and color agent.

63. The confectionery set of claim 38 further comprising an intermediate holder for attachment of said handle portion to said body portion.

64. The confectionery set of claim 38 wherein said container comprises a cylindrical shape.

65. A confectionery set comprising:

a container;

a head portion comprising a collar, said head portion disposed directly above
said container, and said collar attachable to said container; and

5 an edible body portion attached to said head portion and disposed directly below
said handle portion and within said container.

66. The confectionery set of claim 65 further comprising a flowable confectionery disposed
within said container.

10

67. The confectionery set of claim 65 further comprising a flowable confectionery disposed
within said head portion.

68. The confectionery set of claim 65 wherein said collar and said container twist relative to
15 each other for twist attachment.

69. The confectionery set of claim 68 wherein at least one of said collar and said container
comprise a set of tab and slot for twist attachment.

70. A confectionery set comprising:

a container;

a head portion comprising a collar, said head portion disposed directly above said container, and said collar attachable to said container;

5 a body portion attached to said head portion and disposed directly below said handle portion and within said container; and

a flowable confectionery disposed within said container.

71. The confectionery set of claim 70 wherein said body portion is non-edible.

10

72. The confectionery set of claim 70 wherein said collar and said container twist relative to each other for twist attachment.

73. The confectionery set of claim 72 wherein at least one of said collar and said container

15 comprise a set of tab and slot for twist attachment.

74. The confectionery set of claim 70 further comprising a flowable confectionery disposed within said head portion.
